

CS-2511WESC model comes with 0.043 gauge carving bar & chain

OPTIONAL DEBRIS SHIELD AND SNOW SHIELD

CS-2511WES*

Rear Handle Chainsaw

With an excellent power-to-weight ratio, the CS-2511WES is ECHO's lightest and most compact rear-handle saw to date. Weighing just 2.6kg (dry weight w/o bar and chain) and with a premium grade ECHO engine producing 1.10kW, the saw is both highly manoeuvrable and usable for long periods with little fatigue.

*CS-2511WESC comes with carving bar

PROFILE

FEATURES

BENEFITS

Premium grade ECHO engine	✓ Increased performance / extended product life / less downtime
Ultra lightweight	✓ Reduces operator fatigue
Compact design	✓ Enables operators to manoeuvre in tight spaces
ES Easy Start system	✓ Minimum effort required to start the machine
	✓ Faster starting
Oiler adjustment on top	✓ Enables operator to control oil flow for optimal operation
Palm rest	✓ For manoeuvrability and precise control
Starter grip assist cap opener	✓ Helps the user to open the oil/fuel caps, even when wearing gloves
Wide tank openings	✓ For easy refilling
Meshed louvers in body	✓ Prevent pine needle and debris penetration into the engine compartment
Stage 2 low emissions compliant	✓ Reduced exhaust emissions
G-Force engine air pre-cleaner	✓ Reduces engine exposure to dirt and debris for less maintenance and longer life
Dropout prevention nut held on with wire spring	✓ The nut can't be lost during maintenance

Model	Displacement	Dry weight**	Output	Fuel Tank Capacity	Oil Tank Capacity	Guide Bar Length	Saw Chain Pitch	Gauge
CS-2511WES	25.0cc	2.6kg	1.1kW	0.19 litres	0.14 litres	30cm (12")	3/8"	0.050"
CS-2511WESC						25cm (10")	1/4"	0.043"

**without guide bar and chain

EXTENSIVE WARRANTY

ECHO power tools come with a **five year domestic warranty** or a **two year warranty** in professional use. For the domestic user there is the total reassurance of using equipment designed and built for professionals, and a five year warranty offers even greater peace of mind
 (Registration of ECHO products and servicing are necessary to validate the warranty)
